Where you stay

Our penthouse is located in Simba Apartment Village, an established, meticulously run residential complex that meets the highest expectations for equipment maintenance and security in the heart of Diani Beach. The building complex is built in a U-shape and has a large swimming pool in the middle and a beautiful garden to relax in.

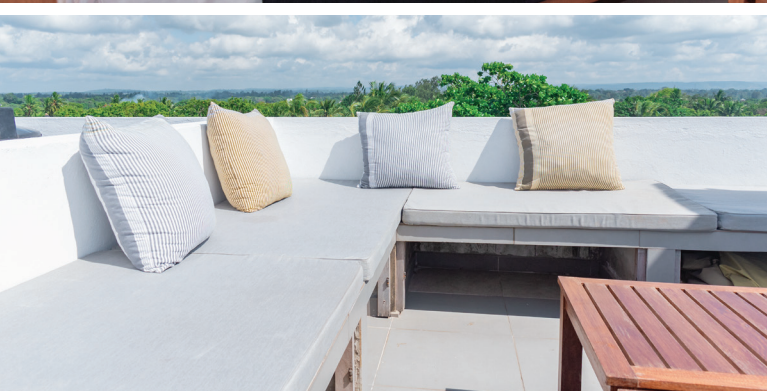

The luxurious penthouse is located on the third floor in Block C. It has 3 terraces, all framed with floor-length sliding doors opening up to a breathtaking view over the beautiful tropical garden within the complex and the spacious swimming pool. The pure exclusivity of the penthouse is crowned with the 25 sqm rooftop terrace, which offers an unobstructed 360-degree view over the Indian Ocean in Diani, with its sunrise up to the daily spectacular sunset over the Shimba Hills. It is located in the heart of Diani Beach, 300 meters walk to the beach or various shopping facilities, as well as numerous restaurants and bars.

Excursions

Diani Beach by Dhow Cruises

One of the best ways to enjoy the Swahili coast is in a traditional boat called a dhow. Cruises can take place in the morning or afternoon/evening. The most popular cruise is the romantic sunset cruise. This magical experience is where the sunset paints the sky from oranges to the palest mauve and indigo turning into a star-strewn sky. Dhow cruises combine history and culture with a sense of adventure. Sailing towards the magical sunset enjoy the silence and beauty of the Ocean. Occasionally you will see the dolphins along the route or even on rare occasions the whale sharks during the season. The experience includes a sumptuous dinner.

Excursions

Wasini Day Tour - one of the greatest marine parks in the world

Departing Diani at 08:00 you will travel past sugar plantations to Shimoni (45 min) where you will embark on a dhow (traditional boat) for the Kitsite Marine Park which is second only to the Great Barrier Reef for its diversity of marine life. It is most renowned for its population of Green and Hawksbill turtles and bottlenose dolphins. When you arrive you will have the opportunity to snorkel among the coral reef marveling at the diversity of life below the waves. All that snorkeling works up an appetite! You will then board again and head for the mainland where you will be served a stunning freshly prepared lunch. After lunch, you will visit the Shimoni Slave caves and gain some insight into the slave trade in the region. Travel back to your hotel or penthouse between 15:30 and 16:00.

Excursions

Funzi Island - explore off-the-beaten-track

The Island comprises four islands in the delta of the Ramizi River and is one of the most diverse islands on the south coast with mangroves, wetlands, forests, and beaches. En route to the island, you will stop off on a sand bank out at sea that offers a stunning spot for swimming.

The main attraction is a boat ride up the Ramizi River which allows visitors to see mangrove wildlife, especially birdlife, and the star attraction - the crocodiles. Lunch is enjoyed in a traditional Swahili restaurant in the village where you can enjoy seafood specialties such as local crab and fish with coconut rice. Vegetarian and other options are available too. The tour starts at 07:30 and lasts about 6 hours.

Rare Whale Sharks & Humpback Whales - seasonal visitors

Humpback whales and whale sharks are some of the rarest creatures that man encounters in our oceans. They are beautiful speckled giants who migrate up the coast. Every year around mid-July migrating humpback whales start to appear off Diani Beach, peaking between mid-August and mid-October. In October the whale sharks also start arriving and we have had both humpback whales and whale sharks during the same trip. Annual humpback whale-watching tours begin in mid August. The trip lasts 4 hours.

Diani by Bike

One of the best ways to explore the local region is by bike. Many locals get around by bike and it's a great way to soak up local Kenyan culture. A bonus is that it is a sustainable way to discover the area! Many of these excursions directly aid the local villagers and provide income. Or do a beach ride. A local guide will take visitors out for a ride along the beach. This is best at low tide so you can ride on the wet sand and head out along the exposed reef to see what sea creatures can be found. The guides can also help you hire a boat from local fishermen to explore further out on the reef and enjoy some snorkeling

Excursions

Kinondo Sacred Forest

Take a ride to the Kinondo Sacred Forest, the only forest of the nine coastal tribes open to visitors and a place of spiritual significance to the local Digo people. The ride takes about 45 min through the local community and once you enter the forest the guide will explain why the local people regard the forest as sacred as they believe the spirits of the ancestors dwell there. The tour in the forest lasts about 1 hour 30 min. Proceeds from this trip help the community in schools and the village hospital. This is a good trip to learn about the coastal communities.

Bars & Restaurants

Ali Barbour's Cave Restaurant: This unique restaurant is set in a coral cave and offers an exquisite dining experience with a menu focused on seafood and international cuisine - 1400 m from Simba
